

Solar—Wind—Geothermal—BioEnergy—Hydropower—Hydrogen and fuel cells

RENEWABLE ENERGY WORKSHOP SERIES

Exciting new Renewable Energy Workshop series!!!!!!!!!!!!!!Each workshop will cover one renewable energy source. The objective is to create awareness of renewable energy sources in a way that is understood by the public and to link existing small -medium size businesses to an interested audience (Residents or businesses).

Speakers will be representing business, academia and government

First Workshop: Solar Energy

Venue: Holiday Inn Express & Suites

40 Admiral Blvd, Mississauga, ON

Date: May 3, 2012 , Time: 9am—1pm

Highlights:

- How renewable energy plays a part in meeting the climate change challenge which is, our ability to mitigate and adapt to changes.
- Renewable energy options and how individuals and communities can gain access to them.
- Government ' s part in ensuring that individuals, community and industry have access to opportunities that have been made available and how these opportunities can be harnessed.

Speakers include:

Bernard Fleet Ph.D., D Sc., FRSC - Adjunct Professor, School of Environmental Applied Science & Management, Ryerson University.,

Khosrow Shahali—CEO -Synapse Energy Inc
